

# LeverX Builds Mobile Applications for SAP PLM and PPM

LeverX is building Mobile Applications for SAP Product Lifecycle Management (PLM) & Portfolio and Project Management (PPM). Launching new iPhone, iPad and iPod Touch applications including Photo2DMS. This mobile application allows a user to easily take a photo, video and audio, check it directly into the SAP Document Management System (DMS), and can associate the photo to a SAP object such as a Materials Master, Service Order or Equipment, all from their handheld device. Photo2DMS can be available for distribution through your IT team or through the iTunes store for customer facing applications.

To see a video demonstration of this application, please visit <http://leverx.com/pages/resources/sap-dms-iphone-app.php>.

LeverX is continuing to define, develop and launch additional mobile applications for SAP PLM & PPM. Please check our website frequently for announcements of more LeverX mobile applications for SAP. If you are interested in being part of the LeverX Mobile Application Pilot team or want LeverX to develop a custom SAP mobile application for your organization, please contact us.
