Assess How SAP PLM Can Support Your Product Lifecycle

- Help companies understand their current product lifecycle process across engineering, manufacturing, support, procurement, accounting and service organizations.
- Explore how and where SAP Idea to Performance solutions can support and improve technical and business processes.
- Build a consensus of PLM related challenges and priorities across organizations.
- Review current landscape of tools and systems deployed.
- Recommend key PLM strategies to adopt a high-level process refinement for the identified key product lifecycle “to-be” processes.
- Assess the business justification (high level benefits) to support the identified business processes for improvement.
- Develop jointly with your PLM team a pragmatic multi-year deployment roadmap with define phased implementation projects to ensure adoption and benefits for your organization and business.
- A focused 3-week project with two senior LeverX PLM strategic consultants.
- Project deliverables include: SAP PLM educational materials, notes, assessment report, and executive presentation.
