

Streamline, Simplify and Automate Material and BOM Creation and Extension

LeverX's BOM Material Allocation Extension (BMAX)

The LeverX BMAX solution delivers your company the following benefits:

- Automate the creation & extension of Material Masters to significantly reduce time, effort & cost
- Establish governance over processes and ensure correct master data is created
- Workflow-enable execution to efficiently drive & monitor tasks for subject matter experts
- Eliminate the proliferation of spreadsheets for managing Material Masters & BOMs
- Easy to deploy, easy to use and easy to validate extension process

Streamline, simplify & automate your Material & BOM extension processes to productive plants & more based on your company defined rules, reducing manual efforts, eliminating errors, & accelerating the handover to operations.

- BMAX-B** Automated extension of BOMs to plants, storage locations, warehouses, sales & distribution channels
- BMAX-M** Automated creation & extension of Materials to plants, storage locations, warehouses, sales & distribution channels
- BMAX-I** Excel and workflow integration for optimized automation
- BMAX-R** Robust rules engine supporting machine learning to define extension criteria for Material Masters & BOMs
