- Dashboard 2
- Innovation Management
- PSM & Variant Config 1
- Visual Enterprise Author/VMg
- Product Lifecycle Costing

Notes: Prepared for PLM Single Source of Truth, CAD Integration and VS Gen with Automation. Focus on very illustrative.

Assess How SAP PLM Can Improve Your Business

- Review your current product lifecycle process across development / engineering, manufacturing, support, procurement, accounting and service organizations
- Explore how and where SAP solutions and LeverX process automation can support and improve your technical and business processes
- Identify key product lifecycle challenges and priorities across all organizations
- Review your current landscape of tools and systems deployed
- Recommend key PLM strategies to adopt and high-level process improvement for identified key product lifecycle “to-be” processes
- Build a high level business justification and benefits analysis to support the identified business process improvements
- Develop jointly with your PLM team a pragmatic multi-year deployment roadmap with defined phased implementation projects to ensure adoption and business benefits
- Various Strategic Assessment & Roadmap (SAR) scope projects to meet your budget and needs, ranging from 1, 2, 3 or more week projects with PLM strategic consultants
- Project deliverables, depending on selected SAR scope, include SAP PLM education, demonstrations, assessment, recommendations, benefits, and executive presentation
