

Environmental Policy

The LeverX Group (hereinafter referred to as the “Company”) recognizes the direct and indirect impact of its operations on the environment, therefore, the key goal of the Company is to find effective ways to eliminate and reduce a negative impact to the highest extent possible.

ENVIRONMENTAL POLICY

The LeverX Group is aware that its activities may affect the environment and communities.

The Company holds the view that setting clear goals, long-term planning, thorough implementation of project decisions and strategies, as well as evaluation of current activities and continuous strive for improvement are the only ways to control, reduce and, where possible, eliminate such negative impact.

To this end, we commit to:

- Strictly comply with all the laws of the countries where the LeverX Group operates, as well as applicable international environmental legislation;
- Assess the impact of our operations on the environment and communities, identify possible environmental risks.
- Apply best and proven practices to control, prevent or mitigate the impact within and outside the LeverX Group.

- Make our contractors comply with the Company's environmental policy, standards, and procedures.
- Ensure that employees have a level of knowledge and understanding appropriate to their environmental responsibilities and are aware of actions they can take to reduce their impacts.
- To use energy and natural resources wisely and efficiently, eliminate and minimise waste, and re-use and recycle where practical.
- To ensure that environmental issues are properly assessed and considered when key decisions are taken about supply chains, processes and new product development.
