

COVID-19: Customer Care

Accelerate Critical Business Operations with Free use of LeverX Software

Response

To support SAP customers involved in the fight against COVID-19, LeverX is opening access to our SAP Software Accelerator and Collaboration platform for free, through September, 30, 2020. This offer is available to SAP ERP and S/4 customers developing and producing products that help fight COVID-19, support our healthcare works, and the general public. Implementation services will be provided at cost to cover business resource and operating expense.

What are the customer challenges?

In times of crisis, SAP customers across various industries are taking action to accelerate research, development and increase production capacity, all while maintaining data governance, collaboration and flexible processes across the enterprise platform.

LeverX helps SAP customers overcome these challenges by delivering Software Accelerators in the space of R&D / Engineering and the Digital Supply Chain.

Sample Use Case

- Accelerate product development and supply of COVID-19 test kit.
- Maintain Workflow and Regulatory flexibility during COVID-19 vaccine development.
- Rapidly extend Materials to new plants to meet newly defined production needs.
- Accelerate, break down barriers & maintain regulatory flexibility.
- Bring remote teams together, communicate and collaborate securely.

Customer Industry

- IM&C | Medical & Life Science |
- High Tech | Aerospace & Defense
- Consumer Products | Food & Beverage
- Engineering & Construction

System Requirements

- ECC 6.0 EHP7
- S/4 HANA

What are the Software Accelerators?

Accelerate R&D, Supply Chain integration processes and maintain flexible Workflow across SAP. Execute critical Workflow within SAP in hours to days vs. weeks to months.

Rapidly extend SAP Material Masters & BOM's to plants based on expanded production requirements. Accelerate reallocation and reuse of Material, and leverage automation to increase capacity and output.

Collaborate in SAP on documents, objects and related data to maintain a flexible, efficient and secure work dynamic, while working from remote locations.

Introducing COVID-19 customer care with free access to Software Accelerators, supporting SAP customers with Workflow, Material & BOM extension and remote Discussion & Collaboration on data. Accelerate critical business operations with free software supplied by LeverX.
